FISHER

PureSoffit™

Offered in both a modern square edge Fineline and classic V Groove profile Fisher's Pure Soffit is produced in a wide range of colours and is the ideal option to beautify your project as either an exterior soffit or interior ceiling/wall covering.

Fisher factory applies our environmentally friendly low VOC coatings using our proprietary Complete Coverage System to ensure all surfaces, including the tongue and groove, are properly covered and beautifully protected.

Fisher's complete coverage process helps ensure trouble free installation and a longer lasting fit and finish.

Pure Soffit is available in British Columbia milled end matched 1x4, 1x6 & 1x8 STK KD Pine and is ideal for a wide range of single family, multi-family and commercial projects.

Why choose PureSoffit Series™?

- Professionally prefinished pine enhances the aesthetic of most any project
- Ideal for exterior soffit, interior ceiling and wall applications
- 11 program colours to choose from
- Factory applied finishes using Fisher's advanced, automated pre-coating system
- Backed by over 20 years of industry experience

ABOUT FISHER

Fisher is a pre-stain manufacturing facility based in British Columbia specializing in semi transparent coatings on both wood and fibre cement.

Originally established in 1998 as a painting contractor, Fisher opened the doors of the first pre-stain factory in 2008. Fisher currently operates in an automated manufacturing facility coating building materials for a wide range of projects and customers throughout North America.
