FISHER
A BETTER WAY TO FINISH

TrueGrain Series™

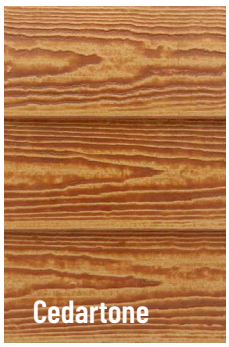

Enhance your project with the look of *real wood* without the maintenance.

TrueGrain Series™ by Fisher Coating utilizes an advanced pre-finishing system on James Hardie Fibre Cement products to achieve depth and contrast that will make your project unique and beautiful, with the durability of cementitious siding.

Why choose *TrueGrain*™ ?

TrueGrain™ is designed to represent the best features of professionally finished natural wood siding. Like natural wood siding, TrueGrain's beauty lies in the variety of substrate grain patterns, enhanced by the two-tone colour combination, which is achieved through Fisher's proprietary stain application process.

- The two-tone stained wood-look provides depth and contrast to beautify any project
- Over 10 program colours to choose from
- Durability and fire resistance of fibre cement siding
- Factory applied using Fisher's advanced, automated pre-coating system
- Backed by an industry leading warranty

ABOUT FISHER

Fisher is a pre-stain manufacturing facility based in British Columbia specializing in semi transparent coatings on both wood and fibre cement.

Originally established in 1998 as a painting contractor, Fisher opened the doors of the first pre-stain factory in 2008. Fisher currently operates in an automated manufacturing facility coating building materials for a wide range of projects and customers throughout North America.
